

MARKETING

This is important because:

"It will help founders and companies properly position their products and services in the market, and learn about essential strategies to succeed with digital marketing, as well as how to communicate effectively via the right channels to generate traffic and revenue."

Topic breakdown:

- Choosing your unique selling proposal and leveraging it to build brand
- Building effective communication strategies with content calendars and campaigns
- Unifying messaging across platforms to drive customer engagement
- Making the correct decisions with platforms, resources, budgets and ads
- The marketing and sales funnel requirement to increase your ROI
- Gaining quick momentum in lead generation and traffic with essential tactics

Meet the speaker

Ahmed is a business professional who helps organizations and founders build scalable online capital and grow revenue streams.

His strategies have led over 40 global brands in multiple verticals, helping them reach millions with content and communications.

He is passionate about pushing the limits of technology to humanize business and increase connectivity. He is the former Head of PR and Partnerships at Mindvalley (\$40M evaluation tech company), former Marketing Director at Goodwall (\$16M in funding) and is currently VP of Marketing and a growth consultant.
